

INTERNSHIP APPLICATION PACKAGE

The International Federation on Ageing (IFA) offers internship opportunities to individuals with a broad variety of backgrounds and areas of interest.

Purpose of the Internship

The internship program offers a vehicle of learning on global ageing issues through involvement in our various projects. The IFA reaches individuals and organizations in 62 countries and has general consultative status with the United Nations and its various agencies and bodies, including the Economic and Social Council and the World Health Organization. Interns enjoy substantial opportunities for active involvement across the many levels of IFA's operations.

Goals of the Internship

The scope of the internship is directly related to the person's experience and interests. Interns develop personal and professional goals, which are reviewed on a regular basis to facilitate skill-building, and undertake specific projects, including:

- Writing articles for the monthly IFA eNewsletter
- Contributing to IFA's knowledge bank
- Participating in administrative tasks to better understand IFA operations
- Meeting with local and regional NGOs and reporting back to IFA on opportunities for collaboration

Application Process

Please complete the questionnaire and submit your application, along with a cover letter and resumé or curriculum vitae, to [Mr. Greg Shaw](#), Director, International and Corporate Relations.

International Federation on Ageing
